SUMMARY

Motivated Software Engineering student and a strong problem solver with solid fundamentals in software concepts and programming. Active academic member in two volunteer teams, with a passion for learning and collaborative development. Committed to applying technical skills and theoretical knowledge in a professional real-world environment.

EDUCATION

The Hashemite University

Bachelor of Science in Software Engineering, GPA: 3.6/4.0

Az-Zarqa, Jordan
2022-2026 (in June)

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, EJS.

Backend & Databases: Node.js, Express.js, Java Spring Boot, JPA, Hibernate, MERN Stack, MongoDB, MySQL.

Programming: Java (Advanced: OOP, Threads, GUI), C# (WinForms), C++, Python (Learner).

Tools & Systems: Git, JIRA, Linux (Basic Navigation & Operations), DaVinci Resolve.

Specialized: Ethical Hacking (Information Gathering, Scanning), MIT App Inventor (A12).

PROJECTS

Salon Hub Project

- Developed a salon booking platform that allows users to create profiles, browse salons, view services, create and manage booking requests, publish hiring posts, share media posts, and interact with salon owners.
- The system supports salon creation, profile management, service presentation, and user-owner communication.
- GitHub Links:** [FrontEnd Repository](#) | [Backend Repository](#)

JoMap Project

- Developed a Jordan-focused location discovery application that helps users explore governorates, tourist places, restaurants, hotels, and markets through an interactive map.
- The app includes user accounts, nearby places, favorites, reviews and ratings, location details, owner-managed listings, photo uploads, reports, and admin approval/moderation features.
- GitHub Link:** [Backend Repository](#)

VOLUNTEER EXPERIENCE

Academic Team Volunteer

2023 - Present

Volunteer Teams, Hashemite University

- Designed educational content and video tutorials using DaVinci Resolve to enhance student learning outcomes.
- Authored clear and concise subject summaries to support peer learning and academic performance.
- Collaborated with multidisciplinary team members to audit and improve academic resources for the student body.

CORE COMPETENCIES & TOOLS

SE Concepts: Solid understanding of UML Diagrams (StarUML, Draw.io), Software Documentation, Operating System fundamentals, and Agile development principles.

Soft Skills: Strong Analytical Problem Solving, Quick Learner with high Adaptability to new technologies, Excellent Communication, and Proven Teamwork abilities.

LANGUAGES

Arabic: Native Proficiency

English: Excellent Working Proficiency

Turkish: Intermediate (Everyday Communication)
